

# LENA Stand Tub

More than just a nursing bath

## Stand tub for professional care

The tub body and the flat control panel are made of high-quality GRP with easy-care surface coating.

Substructure in strong fully galvanized steel construction, four feet with non-slip rubber coating. The tub cladding is one-piece GRP, white RAL 9016 with inspection opening in the back.

Working height of the trough at choice 650, 700, 750, 800 or 850 mm. Water supply via thermostatic fitting with scald protection, shower hose with 2,000 mm length, 3-step modular tub reduction through Plexiglas insert.

The tub offers foot clearance and can be lowered with mobile patient lifts.

## Your benefits at a glance

### Standard Equipment:

- Tub body, tub cladding and flat control panel in GRP "from one cast".
- On the two long sides, the paneling is shaped inwards to provide optimum legroom for the staff
- Eccentric drain and overflow set
- Shower hose and holder
- GROHE thermostat with 38° scald protection and additional 43° maximum temperature limit
- 3-way adjustable tub shortener
- Safety grab handles in molded arm rests

### Optional Equipment :

- Direction of view into the room
- Individual color choice
