

# Genius BP 100 HER

Great performance in small rooms or narrow spaces

## BP100HER – Manual Door Function

The Genius BP 100 HER bedpan washer was designed and optimized for the smallest possible installation dimensions.

With a width of 450 mm, the HER is also ideal for replacements in confined spaces.

It is possible to choose between a 230V or 400V power supply - depending on local conditions.

In an environmentally friendly way, an absolutely reliable thermal disinfection process cleans and disinfects the care dishes.

The Genius BP 100 HER bedpan washer combines the optimum combination of maximum wash ware capacity and installation dimensions.

Three cleaning and rinsing programs are available to the user via a large and clearly arranged membrane keypad:

- **Short program**
- **Normal program**
- **Intensive program**

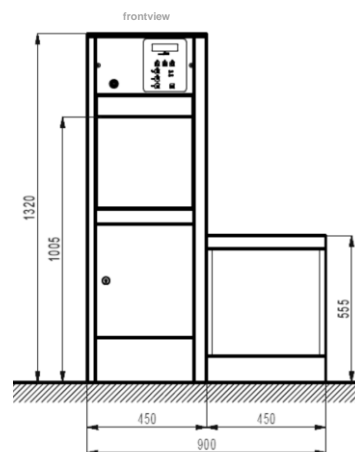

LCD control panel

Also available in version with spout left or right  
**BP100HER-AG**

## Your benefits at a glance

- LCD display, 2 lines
- Door operation: manual
- Deep drawn rinsing chamber made of stainless steel
- Rotating and fixed nozzles guarantee efficient water distribution without rinsing shadows on the wash ware
- Capacity: 1 bedpan and 1 urine bottle / 2 urine bottles
- As floor standing, wall hung or wall mounted unit
- H-Tronic control
- 6 rinse programs, SHORT / NORMAL / INTENSIVE + 3 additional individually programmable programs
- Wash ware holder system
- Soft-Stop door relief - the special damping mechanism prevents the rinsing chamber door from "falling down".
- **Optional equipment:**
- Fan drying with sterile air filter
- Additional dosing pump for intensive cleaning
- Rim rinsing for sink
- Extensive accessories: base cabinets, shelves, wall cabinets, storage combinations, etc.
